Safety Data Sheet

according to regulation (EC) No 1907/2006

Product name: Strep-Tactin Microplates

Version: 1.1 Revision date: 17.08.2023

1 Identification of the substance/mixture and of the company/undertaking

1.1 Product identifiers

Product Names: Strep-Tactin coated microplates Strep-Tactin XT coated microplates

Product Numbers: 2-1501-xxx 2-5101-xxx

Registration Numbers:

Registration numbers are not available for these substances as the substances or their use are exempted from registration according to Article 2 REACH Regulation (EC) No 1907/2006, the annual tonnage does not require a registration or the registration is envisaged for a later registration deadline.

1.2 Relevant identified uses of the substance or mixture

laboratory chemical

and uses advised against:

No relevant information available.

1.3 Details of the supplier of the safety data sheet

Supplier: IBA Lifesciences GmbH

Rudolf-Wissell-Str. 28 37079 Göttingen

Germany

Telephone: +49-551-50672-0

E-mail: info@iba-lifesciences.com

1.4 Emergency Telephone Number

Emergency Phone: +49 (0)551/19240 (Poison Information Center Göttingen)

2 Hazards Identification

2.1 Classification of the substance or mixture

Classification according to Regulation (EC) No 1272/2008 [CLP] not hazardous

2.2 Label elements

Labeling according to Regulation (EC) No 1272/2008 [CLP] n/a

2.3 Other hazards

To the best of our knowledge, the chemical, physical, and toxicological properties of streptavidin and its muteins have not yet been thoroughly investigated.

IBA GmbH therefore recommends treating these products with the care that is due to unknown chemicals.

Safety Data Sheet

according to regulation (EC) No 1907/2006

3 Composition/Information on ingredients

3.1 Chemical characterization: Substance

Name:Strep-Tactin®Strep-Tactin®XTCAS-No:not registerednot registeredEC-No:not registerednot registered

Description of product:

Strep-Tactin® coated microplates and Strep-Tactin®XT coated microplates are microtiter plates for microassays coated with Strep-Tactin® respectively Strep-Tactin®XT. Strep-Tactin® and Strep-Tactin® XT are muteins of streptavidin, an extracellular protein of *Streptomyces avidinii* that binds biotin with high affinity.

4 First aid measures

4.1 Description of first aid measures

After inhalation: Provide fresh air. If feeling unwell, consult a physician.

After skin contact: Wash with plenty of soap and water. If skin irritation occurs, consult

a physician.

After eye contact: Flush eyes with water for at least 10 minutes. If irritation persists,

consult a physician.

After ingestion: Rinse mouth and drink water if conscious. If feeling unwell, consult a

physician.

4.2 Most important symptoms and effects, both acute and delayed

No relevant information available.

4.3 Indications of any immediate medical attention and special treatment needed

No relevant information available.

5 Firefighting measures

5.1 Extinguishing media

Suitable extinguishing media

CO₂, dry extinguishing powder, foam, or water spray.

Unsuitable extinguishing media

No relevant information available.

5.2 Special hazards arising from the substance of mixture

No relevant information available.

5.3 Advice for firefighters

Wear self contained breathing apparatus for fire fighting if necessary (see section 5.2).

6 Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Wear suitable protective equipment.

Avoid eye and skin contact.

6.2 Environmental precautions

Do not let product enter drains.

Safety Data Sheet

according to regulation (EC) No 1907/2006

6.3 Methods and material for containment and cleaning up

Take up mechanically.

Place in appropriate containers for disposal.

Provide suitable ventilation.

6.4 Reference to other sections

Information about safe handling: see section 7.

Information about protective equipment: see section 8.

Information for disposal: see section 13.

7 Handling and storage

7.1 Precautions for safe handling

Provide appropriate exhaust ventilation at places where dust is formed. Keep containers, equipment, and workplace clean.

7.2 Conditions for safe storage, including any incompatibilities

Storage rooms and containers: No special requirements.

Incompatible substances or mixtures: Keep away from food and drink.

Consideration of other advice: Keep containers tightly closed.

Recommended storage temperature: 2-8 °C

7.3 Specific end use(s)

No relevant information available.

8 Exposure controls/personal protection

8.1 Control parameters

Components with workplace control parameters: none

8.2 Exposure controls

General precautionary and hygiene measures

The usual precautions for handling chemicals should be observed.

Avoid contact with eyes and skin.

Wash hands before breaks and after work.

Respiratory protection

Respiratory protection is not required. Where protection from nuisance levels of dusts are desired, use type N95 (US) or type P1 (EN 143) dust masks. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).

Hand protection

Wear suitable gloves. Chemical protection gloves are suitable, which are tested according to EN 374.

For special purposes, it is recommended to check the resistance to chemicals of the protective gloves mentioned above together with the supplier of these gloves.

Inspect gloves prior to each use. Choose suitable gloves according to break through time, permeation rate and material degradation.

Glove material

Nitrile rubber, minimum layer thickness: ≥ 0,11 mm

The suitability of gloves depends on several quality characteristic besides the material. It may differ from one supplier to another.

Break through time

Break through level: Level ≥ 6

The exact break through time should be inquired from the supplier and should be observed.

Strep-Tactin Microplates Version: 1.1 17.08.2023 Revision date:

Safety Data Sheet

according to regulation (EC) No 1907/2006

Eye protection

Use safety goggles with side protection.

Body protection

Choose body protection in relation to its type, to the concentration and amount of dangerous substances, and to the specific workplace., The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.

no data available

Physical and chemical properties 9

9.1 Information on basic physical and chemical properties

Appearance: translucent coating in wells

Odor: odorless

Odor threshold: no data available

no data available рН:

Melting point: no data available

Freezing point:

Initial boiling point and boiling range: no data available

Flash point: no data available

no data available **Evaporation rate:**

Upper/lower explosive limits: no data available

no data available Vapor pressure:

Vapor density: no data available

Relative density: no data available

Water solubility: no data available

Partition coefficient (n-octanol/water): no data available

Viscosity: no data available

Explosive properties: not explosive Oxidizing properties: not oxidizing

9.2 Other safety information

No further relevant information available.

10 Stability and reactivity

10.1 Reactivity

See section 10.3

10.2 **Chemical stability**

Stable under recommended storage conditions.

Possibility of hazardous reactions

Reactions with alkaline and oxidizing substances.

10.4 **Conditions to avoid**

No relevant information available.

10.5 Incompatible materials

No relevant information available.

Safety Data Sheet

according to regulation (EC) No 1907/2006

10.6 Hazardous decomposition products

No relevant information available.

11 Toxicological information

11.1 Information on toxicological effects

Acute toxicity

No relevant information available.

Skin corrosion/irritation

No relevant information available.

Serious eye damage/eye irritation

No relevant information available.

Respiratory or skin sensitization.

No relevant information available.

Germ cell mutagenicity

No relevant information available.

Carcinogenicity

No relevant information available.

Reproductive toxicity

No relevant information available.

Specific target organ toxicity - single exposure

No relevant information available.

Specific target organ toxicity - repeated exposure

No relevant information available.

Aspiration hazard

No relevant information available.

12 Ecological information

12.1 Toxicity

No relevant information available.

12.2 Persistence and degradability

No relevant information available.

12.3 Bioaccumulative potential

No relevant information available.

12.4 Mobility in soil

No relevant information available.

12.5 Results of PBT- and vPvB-assessment

No relevant information available.

12.6 Other adverse effects

No relevant information available.

Safety Data Sheet

according to regulation (EC) No 1907/2006

13 Disposal considerations

13.1 Waste treatment methods

Recommendation for product:

The disposal is regionally differently regulated, therefore the kind of disposal is to be inquired at the responsible authorities.

Contaminated packaging:

Dispose of as unused product.

14 Transport information

14.1 UN-Number

ADR/RID: - IMDG: - IATA: -

14.2 UN proper shipping name

ADR/RID: not dangerous goods IMDG: not dangerous goods IATA: not dangerous goods

14.3 Transport hazard class(es)

ADR/RID: - IMDG: - IATA: -

14.4 Packaging group

ADR/RID: - IMDG: - IATA: -

14.5 Environmental hazards

ADR/RID: no IMDG: marine pollutant: no IATA: no

14.6 Special precaution for user

No relevant information available.

14.7 Transport in bulk according to Annnex II of MARPOL and the IBC code

No relevant information available.

15 Regulatory Information

15.1 Safety, health and environmental regulation specific for the substance or mixture

National regulations:

No relevant information available.

15.2 Chemical Safety Assessment

No Chemical Safety Assessment has been carried out for this substance / mixture.

16 Other information

The above information is based on our present-day knowledge. It does not represent any guarantee of the properties of the product, not guarantee specific properties of the product and shall not establish a legally valid contractual relationship.

Changes to Version 1.0 (from 02.01.2019)

A more stable version of Strep-Tactin®XT is now used for the microplates. The catalogue number was changed from 2-4101-xxx to 2-5101-xxx.

Strep-Tactin® coated microplates (2-1501-xxx) were not changed.
